ACCESSORIES

Emergency Key Release

Used in case of malfunction or power failure, especially useful if there is no other access to the garage.

Wireless Keypad

Weatherproof digital keypad with cover which can be programmed with codes from 1 - 6 digits, for maximum security. Includes back-light for your convenience when used in poor lighting situations.

'Photo Eye' Technology

For added safety this allows the door to automatically reverse when it's sensory light beam is broken by obstruction, helping to protect your family from injury and your car from damage.

Remote Handset

Comes with two or three buttons which act as multi-function hand transmitters. It can also be programmed to open different doors or gates on the one-handset.

Wireless wall mounted remote

Can be installed near an internal access door to your garage giving you greater convenience to open and close your garage door.
